We Are All Connected. Let Nature Teach You

Connecting Children & Adults to Local Natural History Through Education

Joni James/Ardea Grassyfork

I am a retired teacher with 30 years of experience in education and nature study. I am a naturalist, environmental educator, bird watcher, nature photographer, and writer.

My goal is to educate & mentor children and adults towards a restored nature awareness.

Through classroom activities, play, stories, exploration, hikes, &/or presentations, participants will grow in their knowledge & understanding of nature and their place in it. All classroom activities are aligned with Indiana state standards and supporting activities are provided.
